DETAILED ACTION

Allowable Subject Matter

1. Claims 1-25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The examiner agrees with applicant's arguments that Bramer does not show the "locating plate". Additionally, it is noted that Moody (3,001,783) shows an air spring which moves out of contact from the vehicle, however, Moody fails to show the "locating plate." It would not have been obvious to modify either Bramer or Moody in order to add a mounting plate, as the prior art does not teach a mounting plate for engaging an air spring which moves out of engagement with an upper contact point. Further, Buttner (5,332,258) shows what appears to be an air spring inside another air spring. Although Buttner gives a limited description of this suspension, Buttner does not show a locating plate as claimed by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
